

Diesel Tanker

with Hydraulic Pump System

from **Australian Fuelling Systems & Equipment**

Fuel & Lubrication Equipment and Fluid Handling Specialists

4500 litre diesel tanker - fitted with hydraulically powered dispensing system. Delivers 140 lpm through 20m hose with automatic nozzle and swivel for effortless refuelling of heavy equipment on the job. The delivery hose is stored on a heavy duty reel with hydraulic rewind. Macnaught flowmeter with digital counter keeps accurate track of all fuel delivered. Low profile elliptical tank is mounted with spring-loaded brackets direct to chassis and is fitted with P&V vent with rollover shutoff valve, 80mm fill/dip tube & is supplied with calibrated dipstick.

Diesel Refuelling Tanker

Custom built to suit your application and vehicle. Available in capacities from 2000 litres to 10,000+ litres. Top fill or bottom fill systems available. Wide range of pump systems available to rapid, economic refuelling of you equipment on-site.

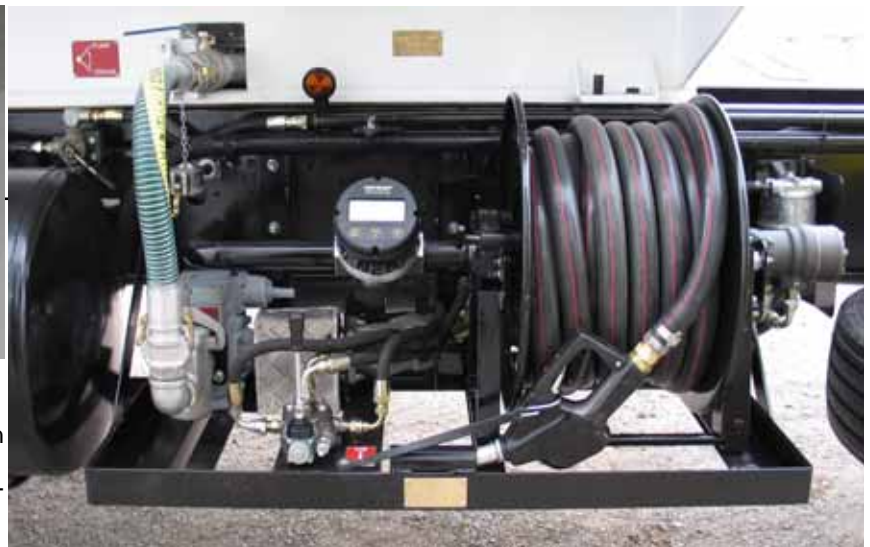

Hydraulically Powered Pumpset

Diesel dispensing system with hydraulically powered Ebsray V15 vane pump, basket type suction strainer, Liquip FH12P heavy duty hose reel with hydraulic rewind, Macnaught M40-ARG-1 flowmeter with digital counter, 20m's of PR fuel delivery hose, Catlow 25mm high-flow automatic nozzle with swivel. Simple 2 position valve controls pump & reel operation.

Tank top Fittings in Rollover Coaming

Fitted with DPV209 Pressure & Vacuum vent with rollover protection valve - shuts off vent in the event of rollover to eliminate spillage. 80mm fill/dip tube allows easy top filling & contents gauging.
