Self-Bunded Diesel Tanks

Available in capacities 12,000 up to 110,000 litres, our range of imported tanks offer competitive prices and solid, compliant construction and fit-out. Can be fitted with engine-powered, manual, pneumatic and DC pump systems to suit any application.

The self-bunded and transportable ITR series tanks for safe storage and handling of diesel fuel, petrol and oils. Ideal for depots, farms, civil construction sites to allow refuelling of plant and equipment.

These tanks can be fitted with custom pumping systems that can include comprehensive management systems to track all fuel issues as well as online tank level data.

Call 1800-025 869 or email at sales@fuelequipment.com for details and up to date quote on a tank and dispensing equipment to suit your requirements.
Self-Bunded Diesel Tanks with Bunded Pump Bay

Self-bunded to AS1692, AS1940 & AS1657 for diesel fuel. Built in ISO container dimensions

- Anti-siphon valve
- Overfill prevention valve
- Audible alarm
- Interstitial space monitor
- Galvanised ladder
- Bunded, lockable pump bay
- 80mm Kamlok with dustcap at infill
- Check valve

- All statutory signage
- Sandbasted to SA2 with 3 coat epoxy finish
- Inspection platform
- 600mm man access hatches
- Easily transportable
- Container Twist-Loks for easy securing
- Simple to install onsite
- Variety of available dispenser systems
Self-Bundied Diesel Tanks without Pump Bay

Self-bundied to AS1692, AS1940 & AS1657 for diesel fuel. Built in ISO container dimensions

**Tank Dispensing Systems**

We offer the following two dispensing systems as configuration options for all of the tanks fitted with the bunded, lockable pump bay. Custom systems can be installed including 415v 3phase, pneumatic and low flow DC systems. The higher flow types can be fitted with Wiggins “quick-fill” nozzles & accessories. The larger capacity tanks without the pump bay can be fitted with a wide array of custom systems for any application. Call 1800-025 869 for quotation on your system.

**Fill-Rite FR310 hi-flow 240v system** - includes:
- FR310 high flow Fill-Rite pump
- Fill-Rite FR901 38mm flowmeter
- Goldenrod 495 10 micron filter
- Catlow NM1 25mm auto nozzle with swivel
- 6m x 25mm rubber hose assembly
- Assembled, installed & wet tested

Approx 75 LPM output - ideal for:
- Trucks
- Buses
- Plant & machinery

**Options**
- Fuel management system
- Spring rewind hose reel

Approx 120 LPM output - ideal for:
- Trucks
- Buses
- Plant & machinery
- Isolated areas without power supply

**Yanmar diesel eng-powered system** includes:
- Yanmar L48 diesel engine
- Electric start with battery
- Fill-Rite FR901 38mm flow meter
- CimTek 30 micron filter
- Spring rewind hose reel
- 6m x 25mm T650-25 rubber hose
- Catlow NM1 25mm auto nozzle with swivel
- Assembled, installed & wet tested
